Database trial and evaluation: ProQuest Newsstand

February 2, 2010

Henderson Library is hosting a trial and evaluation of the [ProQuest Newsstand](#) database. The core of the database includes international, national and regional papers such as The New York Times, The Wall Street

Journal, USA Today, Washington Post, The Guardian, El Norte, Jerusalem Post, and South China Morning Post.

We'd love to know what you think of this database, in comparison with Newsbank ([see details here](#)).

Please

comment here, or e-mail jharwell@georgiasouthern.edu

New databases, thanks to the Student Technology Fee

February 2, 2010

The [Student Technology Fee Committee](#) is funding two new databases, which are being hosted by the [Zach S.](#)

[Henderson Library](#). Both databases are now available via [GALILEO](#).

The online version of [Value Line Investment Survey](#) has replaced the printed version. Value Line presents reports

on over 1,700 individual stocks (covering the company's past performance, current status, and outlook) and

industry reviews. Each company report is revised quarterly, and includes an analyst's recommendation, a beta,

rankings, and financial statistics. Stocks may be screened using various rankings and performance criteria.

[Try it out here.](#)

All of Henderson Library's journals from the Elsevier publisher have been migrated from print to online versions,

which can now be accessed via [ScienceDirect](#), which provides full text access to scholarly journals published by

Elsevier and its subsidiaries. In addition, our first ScienceDirect subject collection, Environmental Sciences, has

been added to the same interface. These 95 journals include often-needed titles such as [Water Research](#), [Science of the Total Environment](#), [Bioresource Technology](#), [Journal of Rural Studies](#), and [NeuroToxicology](#). [Try out ScienceDirect here](#), and look for the green icon for the full-text articles in your

search results.

As always, you can also access these full-text journals with our [Electronic Journals A-Z](#) list, with the purple "Find

It" button in other databases (including [Google Scholar](#) when on campus), with our library catalog ([GIL Classic](#) or

the new [GIL-Find](#) interface), or with [GALILEO](#).

These significant investments in library resources are most appreciated. They are annual costs which can not be

supported with the library budget at the current level, but were among the top priorities in Henderson Library's

wish list for electronic resources. Please let us know what you think, and if you know a member of the Student

Tech Fee Committee, please thank them for making sure that student fees help to provide vital information for

student projects.

Hot doc: President's Budget

February 2, 2010

The President's Budget of the United States Government, Fiscal Year 2011 is now available from the United

States Government Printing Office (GPO). The public can search or browse the budget, which is accessible from

GPO's Federal Digital System at <http://fdsys.gpo.gov>. FY 2011 Budget documents are available in PDF, with

many of the tables also available for separate viewing and downloading as spreadsheets in xls and comma delimited formats.

The online PDF versions of the FY 2011 Budget on GPO's Federal Digital System (FDsys) are digitally signed.

GPO has signed and certified the PDF files to assure users of the authenticity of the documents. These signatures not only establish GPO as the trusted information disseminator, but also provide the assurance that

the electronic PDF documents have not been altered since GPO disseminated them. For more information on

authentication see: <http://www.gpoaccess.gov/authentication>.

The President's budget documents for FY 2011 will be distributed to Federal depository libraries in paper and CDROM

formats as soon as stock is received by GPO.

GPO's press release about the President's FY 2011 budget is available from

<http://www.gpo.gov/pdfs/newsmedia/press/10news04.pdf>.

If you have questions about the budget, please contact your [Government Documents](#) Librarian, Lori Lester at

llester@georgiasouthern.edu .
